

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 H04N7/64 H04N7/66

H03M13/35

H03M13/29

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

 $\begin{array}{ll} \mbox{Minimum documentation searched (classification system followed by classification symbols)} \\ \mbox{IPC 7} & \mbox{H04N} & \mbox{H03M} \end{array}$ 

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)

## EPO-Internal

Category °	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Х	US 2002/146074 A1 (AMRANI OFER ET AL) 10 October 2002 (2002-10-10) page 2, left-hand column, paragraph 8 - page 2, left-hand column, paragraph 10	1-26
X	DE 195 03 528 A (INST RUNDFUNKTECHNIK GMBH) 14 August 1996 (1996-08-14) the whole document	1-26

Special categories of cited documents:      A* document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier document but published on or after the international filling date  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means  "P" document published prior to the international filing date but tater than the priority date claimed	<ul> <li>"X" document of particular relevance; the claimed invention cannot be considered nove I or cannot be considered to involve an inventive step when the document is taken alone</li> <li>"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.</li> <li>"&amp;" document member of the same patent family</li> </ul>
